Chapin-USGS-Trail Camera Remote Stream Gaging-1.pptx

Hi Dan and Steve,

Here's the outline for the remote camera gaging setup that I had mentioned. If you need flume recording at Gold King, you could set this up in 15 minutes.

In the interim, pretty much any trail camera should be able to do this and would be available in Durango. The Bushnell Trophy Cam HD essential has by far the best battery life, so that's the one I would go with.

I'll be out of the office until Aug 24 but will be checking email and don't hesitate to call my cell

--

Thanks,

Thomas
